

I thank you for providing the Read Right Now courses. I am so glad I took that step into Fremantle Library to ask about a course that would help me with spelling, maths and writing. Through the Read Right Now course Jan came into my life and has encouraged me to believe in myself. I have really found her to be so patient and understanding and she has set homework for me to do which has been for me a challenge. I guess there's something to be said in the old saying practise makes perfect. Although I'm far from being perfect in learning, Jan will show me over and over again how to tackle the work she sets, and we work on things together that I don't understand. I know it's because of her that I keep on trying. Even though I groan and moan and even sigh on my part there has also been fun and laughter. I have (been some oops) become very fond of Jan she truly is a kind and wonderful person who also enjoys teaching. So thank you so much Jan and of course the Read Write Now program.

Warm Regards Student Maureen
